

The Times Hashi (Paperback)

Filesize: 8.24 MB

Reviews

An incredibly great book with perfect and lucid answers. Better than never, though i am quite late in start reading this one. You will not sense monotony at whenever you want of the time (that's what catalogues are for relating to if you question me).

(Nannie Lindgren Jr.)

THE TIMES HASHI (PAPERBACK)

HarperCollins Publishers, United Kingdom, 2006. Paperback. Book Condition: New. 197 x 130 mm. Language: English . Brand New Book. After Su Doku, Hashi is one of the most popular Japanese logic puzzles in Japan. Hashi requires logic and reasoning, not mathematical ability. If you think Su Doku is addictive, you ll certainly enjoy the challenge of Hashi. A collection of 150 new puzzles of varying degrees of difficulty: 10 easy, 30 mild, 60 difficult, 40 super difficult, 10 super super difficult. Hashi means Bridge in Japanese. In Hashi you must connect a series of circles (islands) containing numbers by lines (bridges) so that the islands form one continuous connected path. Easy enough? Well there are naturally some extra rules to make life a little harder: the bridges must be straight lines, running horizontally or vertically between the islands; they cannot run diagonally. The bridges cannot cross each other or any island. The number of bridges connected to each island is the same as the number inside the island and there can be a maximum of two bridges between any two islands.
