Hands-On Algebra Ready-To-Use Games Activities for Grades 7-12

By Frances McBroom Thompson Ed. D.

Jossey-Bass. Paperback. Book Condition: New. Paperback. 640 pages. Dimensions: 10.9in. x 8.2in. x 1.7in. Lay a solid foundation of algebra proficiency with over 155 hands-on games and activities. To complement the natural process of learning, each activity builds on the previous one-- from concrete to pictorial to abstract. Dr. Thompson's unique three-step approach encourages students to first recognize patterns; then use diagrams, tables, and graphs to illustrate algebraic concepts; and finally, apply what they've learned through cooperative games, puzzles, problems, and activities using a graphic calculator and computer. You'll find each activity has complete teacher directions, lists of materials needed, and helpful examples for discussion, homework, and quizzes. Most activities include time-saving reproducible worksheets for use with individual students, small groups, or the entire class. This ready-to-use resource contains materials sufficient for a two-semester course in Algebra I and can be adapted for advanced students as well as students with dyslexia. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

I actually began looking over this pdf. This can be for all those who state there was not a worthy of reading through. I am easily can get a enjoyment of reading through a written publication.

-- **Rafael Feeney Jr.**

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.
