Somewhere along the way, we got the strange idea that it is really difficult to talk with God. How did that happen? How did something so easy, so normal, so natural, get so screwed up? We poor, misguided humans have become so entrenched, so enamored with our self-imposed rules and traditions that we have damn near lost our ability to communicate with the single entity that is responsible for our very existence. Does that make a lick of sense to anyone? Wouldn t it be really nice to be able to just relax and BS with God -- no matter who we are or what we ve done? Wouldn t it be great to be able to really talk with him and his helpers -- and know that they ll be doing things that can actually help us and make our lives easier? Learn about some of the techniques you can use to do exactly that. Find out how cool God really is!.
