Not illustrated. 1909 Excerpt: .for this would undoubtedly greatly increase the usefulness of what has been a difficult and time-consuming task. The volume will be of special assistance to taxonomists, to dealers in crude drugs, and to manufacturers who call for Brazilian products.--C. R. B. German South-polar Expedition.--The second part of the eighth volume (Botany) of the sumptuous report upon this expedition has just been issued,4 with an account by Reinbold of all the seaweeds except the Lithothamniaceae, which are elaborated by Foslle. The collections were not extensive and no new species were found by Reinbold. Foslle, however, recognized and described several new unsegmented corallines from the material obtained by this expedition, and here presents again the descriptions with photographic illustrations.--C. R. B. NOTES FOR STUDENTS A primitive type of seed.--Oliver has made a most interesting contribution to our knowledge of the structure of paleozoic seeds. In 1875 Whxiamson 3...
